The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest updating a counter each time a first one of the plurality of mapping caches is flushed, recording the counter's value in response to a change in an address translation map, determining that the first one of the plurality of mapping caches has not definitely been flushed based on a comparison of the counter's value with the recorded counter value in claims 7 and 11 in combination with the other elements set forth in the claimed invention.

Claims 8 and 12-17 are respectively allowable as dependent on independent claims above and incorporated additional allowable features therein.
